ABOUT THE PERFORMANCE

Locus Sonus will be in residence between the 15th and the 29th of August in the USA with two installations and a duplex performance between them. The two locations will be at the DIGIT Festival, Delaware Valley Arts Alliance & Roebling Bridge Environmental Arts and at the RIVERFAWN Gallery in New York City.

Locus Sonus has constructed for this performance 2 IP webcams/parabolic microphones with which they can hunt for sounds in and around the venue streaming them simultaneously to the remote location.

In each location laptop performers capture and remix the audio from the mic and video
